

## Environment, Health, Safety and Quality Policy

We are committed to executing our engineering, procurement, and construction activities in the oil, petrochemical, power generation, infrastructure, and industry sectors with excellence in quality, safety, occupational health, and environmental protection, ensuring sustainability and business continuity in compliance with applicable legal and environmental requirements. Our goal is to satisfy our customers, guarantee the safety of our employees and stakeholders, and protect the environment. We achieve this through the following commitments:

- Efficiently offer high-quality technical services and projects that meet established requirements safely, always oriented toward excellence.
- Maintain safe and healthy working conditions, mitigate hazards, reduce risks, and promote the goal of zero injuries.
- Sustainably use resources, avoid pollution, and strive to achieve zero environmental damage.
- Support the continuous training of our staff to improve our processes.
- Promote consultation with and participation from our employees in occupational health and safety aspects.
- Improve our quality, environment, occupational health, and safety management systems continuously.

**Jorge Rojas González**  
**PRESIDENTE**  
**Septiembre de 2024**

A handwritten signature in blue ink, appearing to read "Jorge Rojas González", written over a horizontal line.
